

The Aylmer Health Coop thanks

... the 43 volunteers — member users, workers and administrators — who gave 216 hours of their time during the member recruiting blitz held November 4 - 6. Their participation contributed to heighten public awareness of the Aylmer Health Coop and the advantages of joining a group of citizens who decided, on a

participative democratic and egalitarian basis, to work towards a better collective health. It is the population at large that we wish to thank for having accepted the spontaneous and unforeseen requests on behalf of our volunteer-participants. Such a blitz does not go without statistics: 1,680 contacts with citizens, 77 on

the spot memberships and especially all the comments and suggestions that we preciously recorded. Once again, thank you very much. Together we are working for our collective health:

Raoul Côté
Directeur des communications
Coop Santé Aylmer
